SPAZLUX

SPAZLUX INTERIORS

The SPAZLUX Interior Process

All ten steps, what you do at each one, and when each payment falls due.

TEN STEPS

From your first idea to moving in

Every project follows the same clear steps, usually taking 45–60 working days from final design approval.

STEP 01

Consultation & requirements

We understand your vision, measure your home precisely and agree a budget.

Booking advance when you confirm: ₹50,000

STEP 02

Space planning & layout

Efficient, inspiring layouts planned around how you live.

STEP 03

Mood boards & materials

We guide you to the materials and finishes that bring your vision to life.

STEP 04

3D visualisation & walkthrough

See every room in realistic 3D before anything is made.

STEP 05

Final design freeze

The design is finalised and approved by you before production starts.

Payment: 50% on design confirmation, less the advance

STEP 06

Factory production

We manage production in our own factory, from raw material to finished units.

STEP 07

Quality check & dispatch

Every item is checked against our standards before it leaves the factory.

STEP 08

On-site execution

Our team installs everything with care, under a dedicated site manager.

Payment: 40% before installation

STEP 09

Final inspection & clean-up

A last inspection of every detail, and your home is left clean.

Payment: 10% before the final finish

STEP 10

Handover & support

You move in, and our service team stays with you afterwards.

Your site should be ready and accessible before execution begins, with electricity, water, storage and safe working conditions.

NEXT STEP

Your dream interiors, delivered step by step.

Pick your home, your rooms and a finish, and our price checker shows an estimate in about a minute. Or call us and our design team will visit your home at no charge.
